JP Goldman — Live Site SEO Fix Report

Site: https://www.jpgoldman.co.uk | Date: 5 October 2026 | Prepared by: Legalbuzz (tech@legalbuzz.co)

Scope: SEO Work & Stats — On Page and Technical fixes only. Content creation (new service, location, blog or FAQ pages) excluded. The password-protected /info/ page was deliberately not touched.

1. Summary

Area	Result	Live site change
Page titles	12 over-long titles shortened to ≤60 characters	Yes
Meta descriptions	3 missing written; 15 over-long trimmed to ≤160 characters	Yes
H1 headings	4 pages given an H1; duplicate H1s removed on 5 pages	Yes
Indexing	6 form / thank-you / popup pages set to noindex	Yes
Structured data	Organization schema enabled (name + logo)	Yes
Social share image	Not set — no suitable image confirmed	No (open)
UK English (en-GB)	Not set — needs language pack installed in WP Admin	No (open)
CRM task statuses	Not changed — dashboard login blocked from this environment	No (CRM only)

All changes were written through Yoast SEO / WordPress (via the WPVibe plugin), the SiteGround cache was purged, and results were spot-checked on the live pages. Each content edit created a normal WordPress revision, so it can be rolled back from the editor.

2. Key finding: the CRM site checks are not reliable

- Every On Page and Technical check on the Legalbuzz board scanned only **1 page** (the homepage).
- It reported the homepage as missing its title, meta description, H1, canonical, viewport and lang attribute, and the sitemap as empty. **All of these exist on the live site** (verified directly).
- Most likely cause: the CRM scanner is served SiteGround Security's CAPTCHA page instead of the real site. That page has no title, H1, lang or links, which matches every false failure. Our own direct requests to the site received the same CAPTCHA.
- As a result, several tasks marked "Done/pass" were actually failing on the live site (multiple H1s, long titles, long descriptions), and several "To do" items were false alarms.
- **Recommendation:** allow-list the scanner in SiteGround Security, or switch it to read via WPVibe / the WordPress REST API.

3. Fixes applied on the live site

Fix 1 — Noindex form and utility pages **FIXED**

These pages should not appear in Google, so they are now noindex:

/instruction-confirmation-form-sale-and-purchase/, /instruction-confirmation-form-sale/, /instruction-confirmation-form-purchase/, /instruction-confirmation-form-remortgage/, /thank-you/, /popupbuilder/important/

Verified: Yoast data shows noindex on all 6.

Fix 2 — Missing meta descriptions written FIXED

/2024-conveyancing-outlook-insights-from-jp-goldman-on-whats-to-come/ — Our 2024 conveyancing outlook: the technology, regulation and market trends we expected to shape buying and selling property in England this year.

/rounding-off-2024-and-the-market-reaction-to-the-autumn-buget/ — How the property market reacted to the Autumn Budget and the end of stamp duty relief, and what it meant for buyers and sellers rounding off 2024.

/jp-goldman-supports-remix-cheerleading-team-to-second-place-in-europe/ — JP Goldman sponsored Remix, a junior cheerleading team from Weston-Super-Mare, who finished second out of 17 teams at The European Summit in Lisbon.

Verified: all three now output a 146–148 character description.

Fix 3 — H1 headings FIXED

H1 added (pages had none): /contact/ ("Contact JP Goldman"), /what-our-clients-say/ ("What Our Clients Say"), /check-our-bank-details/ ("Check Our Bank Details" — added above the existing bank-detail checker, which was not touched), /blog/ ("JP Goldman Blog: Conveyancing News and Guides").

Duplicate H1s removed: /contact/ — "Manchester Office" and "Middlewich Office" changed H1 → H2; /about-us/ — "Meet the team" changed H1 → H2.

Posts with a repeated title: the theme already shows the post title as the H1, so the second copy inside the article was removed on /first-time-buyer-conveyancing-checklist/, /buying-and-selling-at-the-same-time-what-home-movers-need-to-know/ and /jp-goldman-recognised-at-the-responsible-business-impact-showcase/.

Visible change: new headings appear on the 4 pages above; the office headings on Contact are slightly smaller.

Verified on the live Contact and What Our Clients Say pages: exactly one H1 each.

Fix 4 — Organization schema FIXED

Yoast Organization details set: name "JP Goldman" and the JP logo.

Verified on the live homepage: the schema now includes an Organization entity (name, URL, logo) linked to the website as publisher.

Fix 5 — Titles and meta descriptions shortened FIXED

12 titles and 15 descriptions were over the length Google displays and would be cut off in results. They were rewritten to fit, keeping the original facts and messaging. Full before/after in Section 5.

Verified: titles now 46–60 characters; descriptions 130–157 characters.

4. Still open

Default social share image (og:image) NOT DONE

Pages without a featured image share with no picture on Facebook, LinkedIn or WhatsApp.

The only logo file is 129×137px — below the 200×200 minimum. No suitable landscape image could be confirmed.

Next: choose an image (ideally ~1200×630, e.g. office or homepage hero) and set it in Yoast → Settings → Site basics.

UK English language (en-GB) NOT DONE

The page language and og:locale are US English (en-US / en_US).

Next: WP Admin → Settings → General → Site Language → English (UK) → Save. WordPress installs the language pack automatically.

Security headers (HSTS, CSP, X-Content-Type-Options, X-Frame-Options) NOT VERIFIED

Reported missing by the CRM, but could not be checked because of the SiteGround CAPTCHA. May be another false result. Configure in SiteGround if confirmed.

Content-creation tasks (service depth, location pages, blog hub, question pages) OUT OF SCOPE

Excluded by agreement. Note the CRM's claims are false anyway: the site already has ~20 service pages, 20 location pages, a blog with 45 posts, and question-led pages.

5. Before / after — titles

Page	Before	After
/conveyancing/	Conveyancing Services: Buying, Selling & Remortgage | JP Goldman (64)	Conveyancing: Buying, Selling & Remortgage | JP Goldman (55)
