For AI Overview, rank is the order of cited sources. No London location option was available, so results are Google UK-wide. Maps entries show only a 'Reviews' tag, with no rating or count. Rows mentioning the client are highlighted.

Notes and data caveats

- Read-only collection: no SE Ranking settings, projects or billing were changed, no exports were made and no paid actions were used.
- Keywords in top 10 (94) is counted from the Organic keywords table (rows at positions 1-10; 93 unique keywords). It matches the Overview position chart.
- SE Ranking's keyword table lists the client at position 1 for 'commercial litigation solicitor london', but the stored results page shows it only in the Maps pack (#3). The #1 may reflect the Maps listing. Check before quoting.
- 'construction dispute solicitor london' was missing from the database earlier on 13 Oct and returned data (volume 0, difficulty 8) on a later pull.
- Step 4 'construction solicitor croydon' is n/a: the keyword is not in the UK database.
- CPC values are in USD, as SE Ranking displays them. Values such as 2.9K, 1.1K and $1.2K are copied as shown.
