JP Goldman — Go-Live Conditions Checklist

Client conditions from Dan's email, set against the 13 October 2026 staging check (full report follows). Live site: https://www.jpgoldman.co.uk/

GREEN LIGHT	Dan's green light needs items 2, 3 and 4 confirmed. Item 1 is tested straight after switchover.
LIVE SITE CHANGE	None yet — the staging check was read-only.

#	Dan's request	Status	Where it stands (from the check) and what's needed
Before go-live — needed for the green light			
1	**Quote calculator.** Perfect Portal calculator on /our-fees/. Test straight after switchover: run a quote and confirm the floating quote button works. If it doesn't load, roll back.	FAILS ON STAGING	On staging the calculator never starts on /our-fees/, /quote/, the homepage or /conveyancing/, and the floating "Instant Estimate" button is missing. It works on live today. Probable cause: the calculator only runs on the jpgoldman.co.uk domain — confirm with Perfect Portal before launch. **Launch day:** run a full test quote and click the floating button straight after switchover; roll back if either fails.
2	**Blog page.** Confirm /blog/ shows all posts correctly and send a screenshot.	READY ON STAGING	Staging /blog/ lists all 50 posts and every category filter works (screenshot in the Blog section). Note: **live /blog/ is broken today** (raw code shown, 0 posts) — the new page fixes this on launch. Send Dan a screenshot of live /blog/ after switchover.
3	**Redirects and robots.txt.** All four homepage versions (http/https, www/non-www) redirect to https://www.jpgoldman.co.uk; robots.txt fixed; launch-day steps followed.	PART CONFIRMED	https://jpgoldman.co.uk → 301 → https://www.jpgoldman.co.uk/ (200) confirmed today. The two **http://** versions could not be tested from our environment — check in a normal browser on launch day. Staging robots.txt is `Disallow: /` with a noindex tag ("Discourage search engines" appears to be on). **Must be switched off at launch**, then recheck robots.txt and the homepage robots tag.
4	**New pages.** Hold all 17 staging-only pages back as drafts; launch with existing pages only; review after launch.	CONFLICT	The 17 pages are listed in the report below. **/quote/ and /fees/ are among them but are linked from the new design on every page** — main menu "Get a Quote" and footer "Instant quote" (/quote/, all 118 pages) and footer "Our fees" (/fees/, 104 pages). Drafting them as-is would break those links site-wide. **Before launch:** repoint those links (e.g. "Get a Quote" → /our-fees/, as on live today) or agree with Dan to keep /quote/ and /fees/ live.
Within a couple of weeks of launch			
5	**Perfect Portal.** The five main site forms, including the contact form, still send by email only. What to ask the Perfect Portal BDM?	QUESTION	Confirmed: the contact form and the new /quote/ form both send through Contact Form 7 (email). The six wills, probate and power of attorney pages already use Perfect Portal intake forms, which load correctly. **Suggested questions for the BDM:** (a) Can the quote calculator ID be enabled for the new site and any staging domain? (b) Can the contact and quote forms post leads straight into Perfect Portal (intake form, API or webhook) instead of email? (c) Should conveyancing enquiries use a lead-intake form like the probate pages?
6	**Mobile speed.** Mobile score 65, main content takes 5.3 s. Will this improve over time?	NEEDS WORK	Our test gave a similar result: mobile performance 56, main content (LCP) 5.4 s, layout shift 0.062. **It won't improve on its own.** Lighthouse points to render-blocking CSS and JavaScript (≈1.2 s), unused CSS (≈0.75 s — the old theme and the new design's styles both load) and image sizing. The slow element is the homepage hero image (Manchester viaduct). These are fixable after launch.
Dan's side / for us to answer			
—	Analytics and Search Console access; checking that test enquiries reached their inbox.	ANSWER DAN	Dan asks **which email address** the test enquiries were sent from — reply with it. Tracking tags check out: G-1XDXG7F64J and GT-5R4WK5PZ are each installed once on staging, same as live.
—	Confirm in writing that JP Goldman owns the website, its content, the domain and all analytics accounts, and that enquiries come only to them.	ANSWER DAN	Needs a written reply from Legalbuzz — not something the site check can confirm.
Content after launch — noted, no action before go-live			
—	**Digital Conveyancing Maturity Index:** blog/PR wording — "Platinum status in the 2026 Digital Conveyancing Maturity Index, a Digital Maturity Score of 79.3%, and a place in the top 10% of this year's respondents"; add the official badge. · **Charity & community:** details and photos of support for Urmston Meadowside UBs to follow. · **Meet the team:** names, roles and photos to follow. · **Monthly blogs:** continue, with each article sent to JP Goldman in draft for a compliance read before publishing.		

Status key: **READY** confirmed on staging · **FAIL / CONFLICT** must be resolved before launch · **PART / NEEDS WORK / ANSWER** open item · **QUESTION** for Perfect Portal.

JP Goldman — Staging Go-Live Check

Staging: https://www.staging3.jpgoldman.co.uk/ · Live: https://www.jpgoldman.co.uk/ · Checked 13 October 2026 · Prepared for Legalbuzz

VERDICT	Not ready to go live yet — the quote calculator does not work on staging.
LIVE SITE CHANGE	No — read-only check of both sites. No forms submitted, nothing edited.
METHOD	Headless Chrome (desktop 1366px and phone 375px), plus page-source and sitemap comparison. Requests were spaced out to avoid SiteGround's bot protection.

Summary of failures and actions

1. **The Perfect Portal quote calculator does not load on staging** (/our-fees/, /quote/, homepage, /conveyancing/), and the floating "Instant Estimate" button is missing. Its scripts load but never start. Probable cause: the calculator ID only works on the jpgoldman.co.uk domain. This is an inference — confirm with Perfect Portal whether it will work once on the live domain.
2. **/quote/ is linked from every page** (main menu "Get a Quote", footer "Instant quote", in-page buttons). **/fees/** is linked from 104 of 118 pages (footer "Our fees"). Hiding or not publishing them would break these links site-wide.
3. **The new /quote/ form sends to Contact Form 7 (form 79), not Perfect Portal.** Confirm this is the intended route for quote leads.
4. **Search engines are blocked on staging** (robots.txt `Disallow: /` and a noindex tag). This matches WordPress's "Discourage search engines" setting being on — **it must be switched off at go-live** or live will be deindexed.
5. **Plain-http redirects and desktop speed could not be tested** from this environment. Check them in a normal browser and in Google PageSpeed.
6. **Separate from go-live: live /blog/ is broken today.** It shows raw shortcode text and lists 0 posts.
7. **Minor issues:** /our-fees/ still uses the old design; on mobile the chat button covers some body text; the footer reads "Charity & communityOur app"; new posts are dated 1 Oct 2026 on the blog list but the sell-faster post page says 2 May 2026; "dilligence" is misspelled on /conveyancing/.

Results

Item	Result	Evidence / notes
1a. Calculator on staging /our-fees/	FAIL	The calculator never starts. Its two scripts load (200), but its styles and data calls never happen (on live they do). The four "GET QUOTE" options are missing and the space is blank.
1b. Floating quote button — staging homepage and /conveyancing/	FAIL	The "Instant Estimate" side tab does not appear, so there is nothing to click. Only a "Live chat" button shows.
1c. Live /our-fees/ for comparison	PASS	Four "GET QUOTE" options and the side tab show. Clicking the tab opens the calculator; "Buying" goes to "Purchase Estimate – Is the property a New Build?".
2a. Staging /blog/ post count	PASS	50 posts listed.
2b. Staging-only posts	PASS	All 5 listed: Stamp duty on second properties; Leasehold reform; Remortgaging against a rate deadline; Sellers: the one week that decides how fast your sale goes; Fixed fee conveyancing. One existing post (first-time sellers) has a new address on staging; the old address 301-redirects to it.

2c. Category filter tabs	**PASS**	Buying 20 · Selling 5 · Remortgaging 3 · Law changes & market 18 · JP Goldman news 4 · All 50.
2d. Live /blog/ (found along the way)	**FAIL (live)**	Shows the raw code `[nectar_bloglayout="masonry-blog-sidebar" …]` as text and lists 0 posts.
3a. https://staging3… / https://www.staging3…	**PASS**	Non-www: 301 → https://www.staging3.jpgoldman.co.uk/ (200). www: 200 directly.
3b. http://staging3… / http://www.staging3…	**CAN'T CHECK**	This environment's network proxy refuses plain-http requests from the browser (405). A direct request got SiteGround's CAPTCHA page (202) instead of a redirect.
3c. Live https:// versions	**PASS**	Non-www: 301 → https://www.jpgoldman.co.uk/ (200). www: 200 directly.
3d. Live http:// versions	**CAN'T CHECK**	Same limitation as 3b.
4a. Staging robots.txt	**PASS (blocked)**	Contents: `User-agent: *` / `Disallow: /` — as expected for staging.
4b. noindex tag on staging homepage	**PASS**	`<meta name='robots' content='noindex, nofollow' />`. Live has `index, follow`.
4c. "Discourage search engines" setting	**CAN'T CHECK**	No admin access to staging. The robots.txt and noindex output match WordPress's behaviour when the setting is on. Go-live risk: switch it off.
5a. 17 staging-only pages	**200 STAGING / 404 LIVE**	Staging sitemap 118 addresses, live 102. All 17 below load on staging and do not exist on live.
5b. Links to /quote/ and /fees/	**RISK**	/quote/ linked from all 118 pages; /fees/ from 104. Details in the table below. Live's "Get a Quote" points to /our-fees/ instead.
6a. Staging /contact/ form	**SHOWS**	Contact Form 7: name, email, phone, message, Send. Sending not tested (as instructed).
6b. Staging /quote/ form	**SHOWS, STEPS WORK**	New 4-step form (Transaction, Value, Property, Your details). "Buying a home" → "What is the property worth?". Its code sends to Contact Form 7 form 79, not Perfect Portal. Sending not tested.
6c. Perfect Portal intake form on 6 pages	**PASS 6/6**	Will Writing, Wills & Probate, Grant of Probate, How Long Does Probate Take, Lasting Power of Attorney: form 74158a70…. Probate Property Sale: form 7196b610…. All loaded from Perfect Portal and rendered visibly (≈550–680px tall).
7. Mobile (375px)	**PASS, MINOR ISSUES**	No sideways scrolling on any of the 5 pages. Chat button covers the end of a line of body text on /conveyancing/ and /our-fees/. /our-fees/ still has the old header/design. The post page has an empty white strip under the header.
8. Speed — staging homepage	**PARTIAL**	Google PageSpeed refused (free daily quota used up). Lighthouse (PageSpeed's engine) from this environment, **mobile**: Performance 56 · Accessibility 100 · Best Practices 96 · SEO 66 (low only because of the deliberate noindex). LCP 5.4 s · CLS 0.062. **Desktop: can't check** — the server returned 403 to Lighthouse twice. Lab numbers, not Google's.
9. Tracking tags	**PASS**	Each tag installed once. `G-1XDXG7F64J` and `GT-5R4WK5PZ` each appear twice in the source = one loader script + one config line per tag. Live is identical.

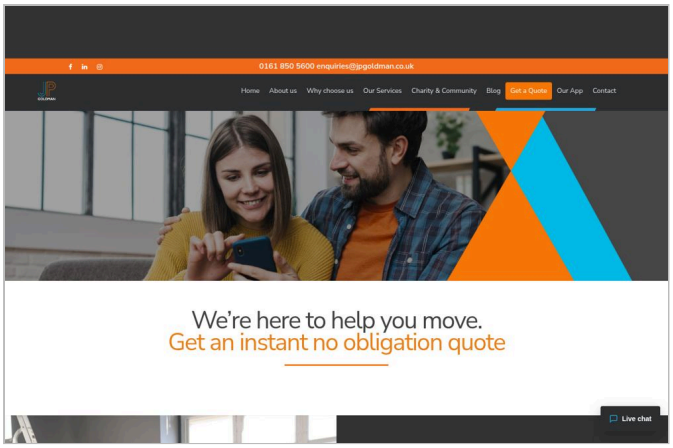

Item 5 — the 17 staging-only pages (200 on staging, 404 on live)

Address	Address	Address
/approach/	/areas-bolton/	/areas-manchester-city-centre/
/commercial-conveyancing/	/fees/	/fixed-fee-conveyancing-explained/
/leasehold-reform-what-it-means/	/power-of-attorney/	/quote/
/remortgage-timeline-rate-deadline/	/sell-faster-contract-pack/	/services/
/services-buy-to-let-and-portfolios/	/services-buying-and-selling/	/stamp-duty-for-second-properties/
/why-first-time-sellers-need-conveyancing-just-as-much-as-buyers/	/wills-and-testaments/	

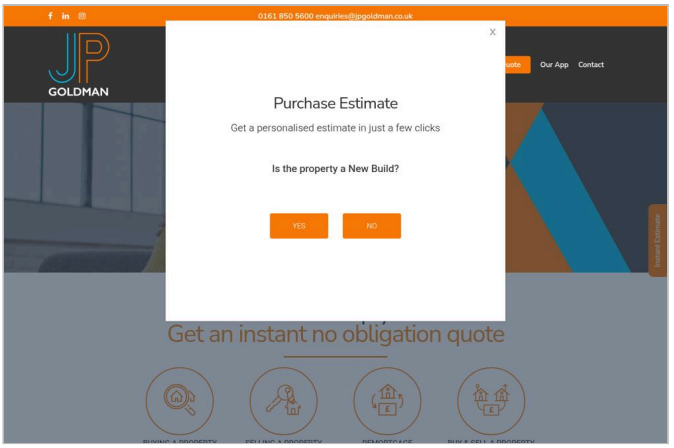

Item 5 — links that point to /quote/ and /fees/ on staging

Target	Where	Link text (count across all 118 pages)
/quote/ (118 of 118 pages)	Header / main menu	"Get a Quote" (236), "Get a quote" (85)
	Footer	"Instant quote" (85)
	Page content	"Get an instant quote" (159), "Instant quote" (136), "Start my quote" (51), "Get a quote" (19), plus about 20 one-off text links (e.g. "Get your Bolton quote", "Get an instant fixed-fee quote", "sixty-second online quote")
/fees/ (104 of 118 pages)	Footer	"Our fees" (86)
	Page content	"Our fees" (18), "See every fee we publish →" (homepage)

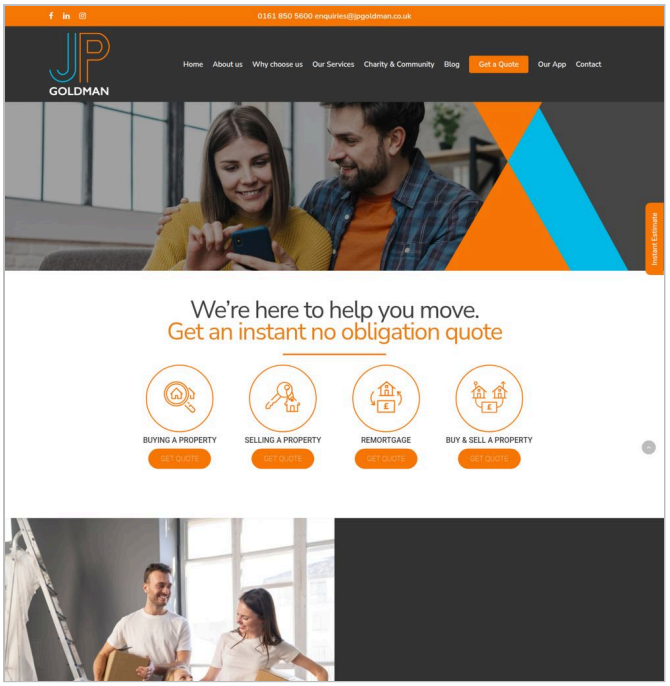

Screenshots — 1. Quote calculator

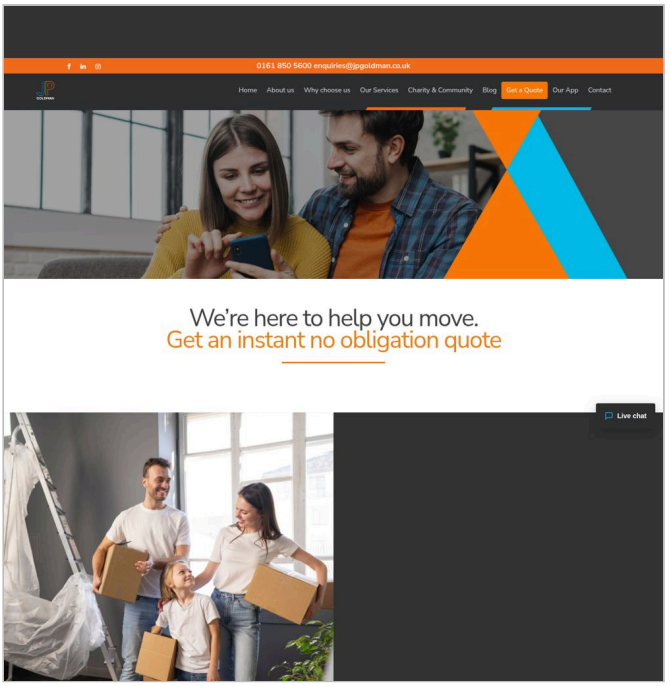

Staging /our-fees/ — no calculator options, no "Instant Estimate" tab.

Live /our-fees/ — calculator opens ("Purchase Estimate").

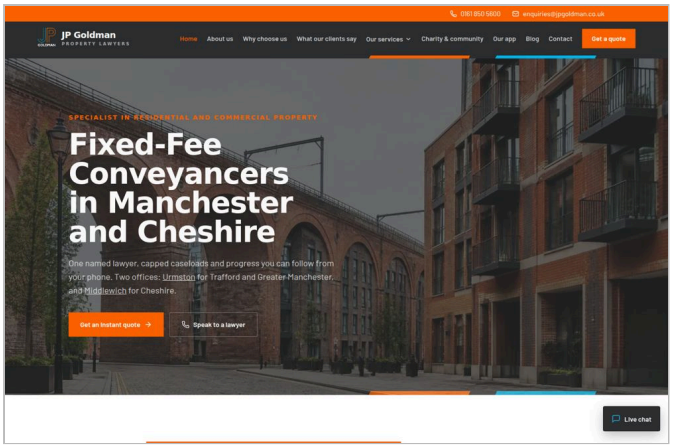

Live /our-fees/ — four "GET QUOTE" options and side tab (top of page).

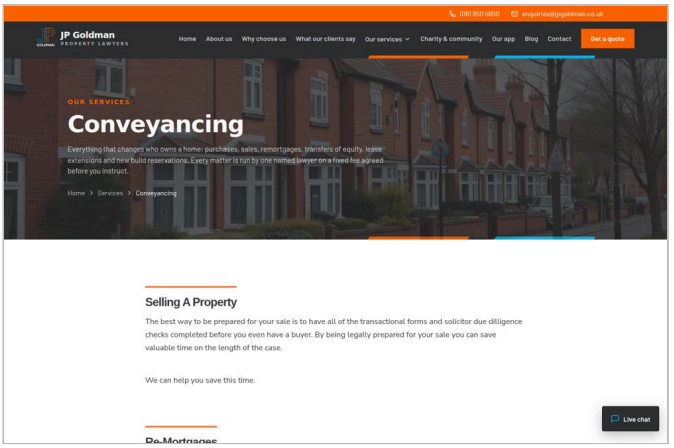

Staging /our-fees/ — same area blank (top of page).

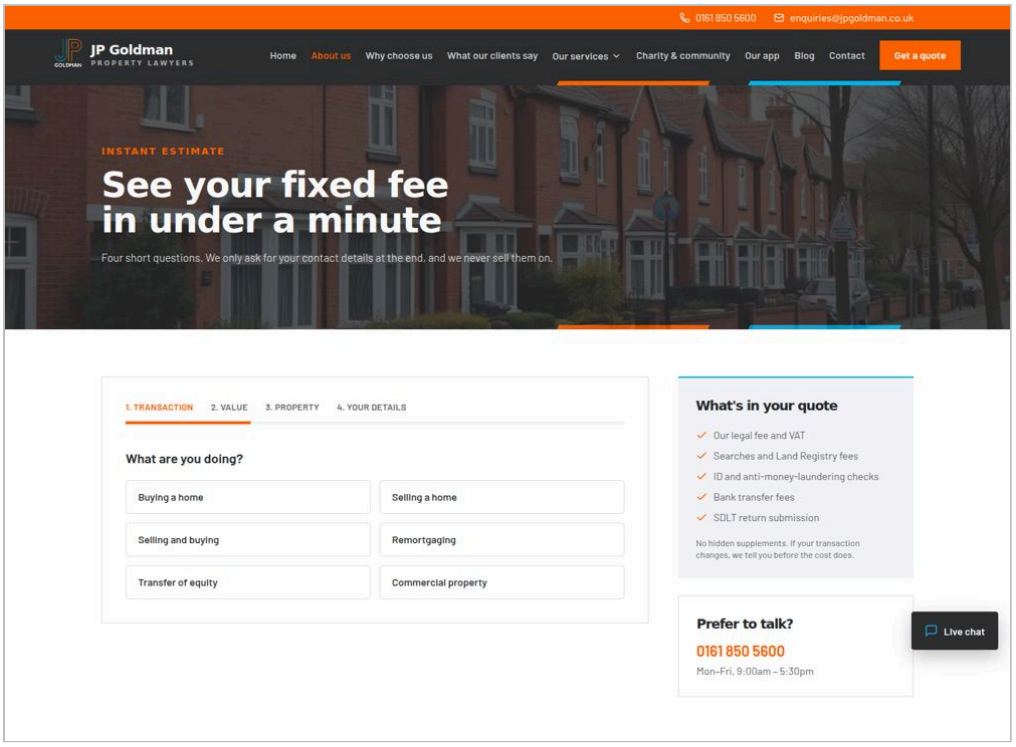

Screenshots — 1. Quote calculator (continued)

Staging homepage — no floating quote button (only "Live chat").

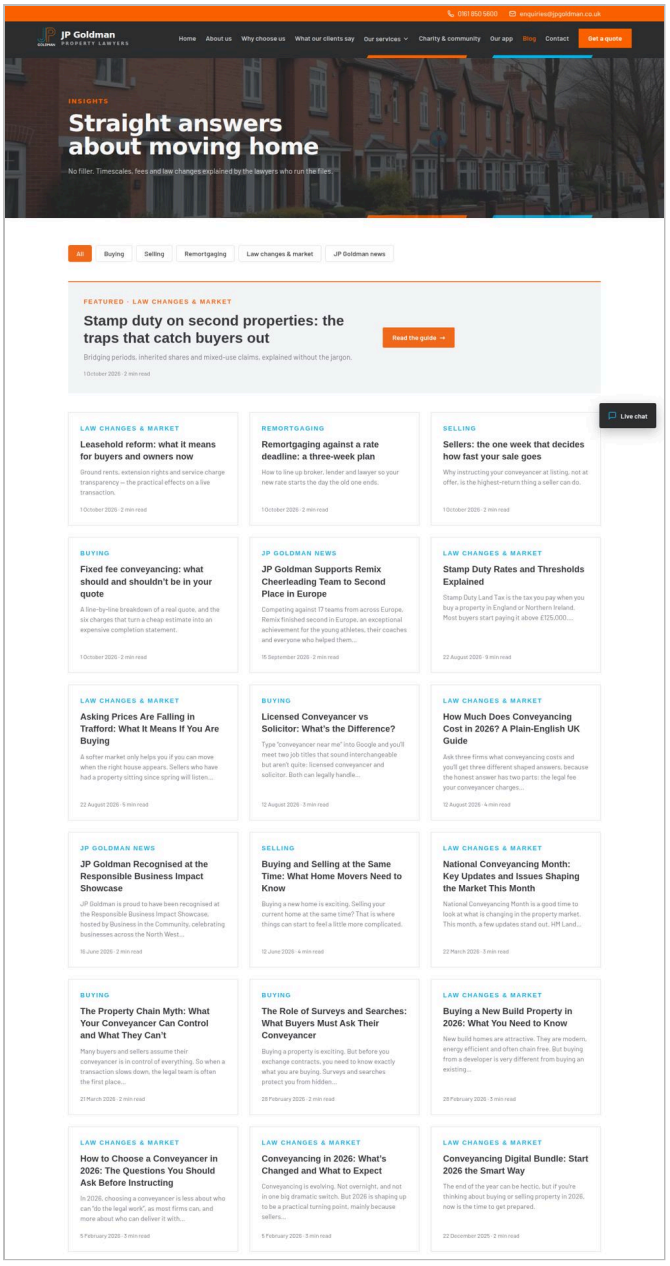

Staging /conveyancing/ — no floating quote button.

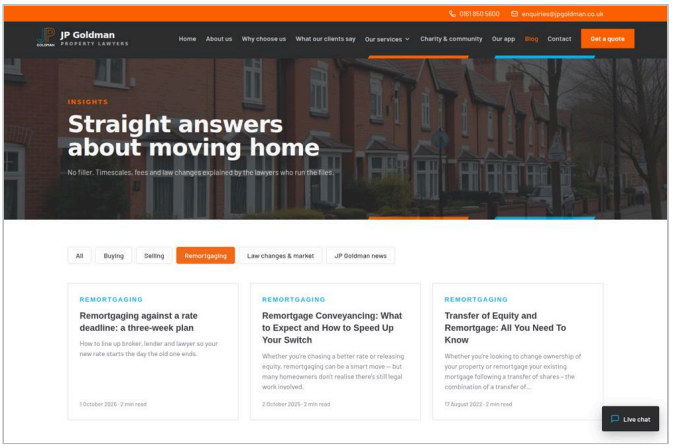

Staging /quote/ — new 4-step quote form (sends to Contact Form 7).

Screenshots — 2. Blog

Staging /blog/ — 50 posts with category filters (top of page).

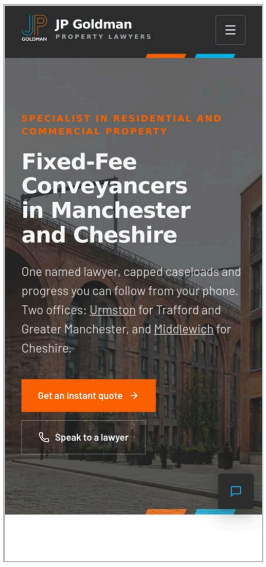

Staging /blog/ — "Remortgaging" filter applied (3 posts).

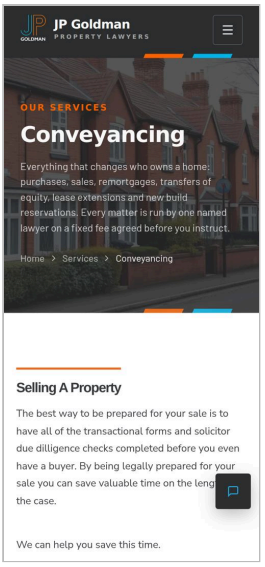

Live /blog/ — raw shortcode shown, 0 posts listed.

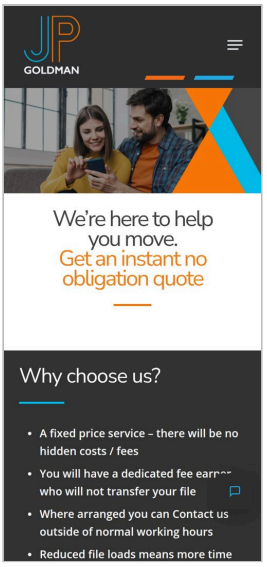

Screenshots — 7. Mobile (375px, staging)

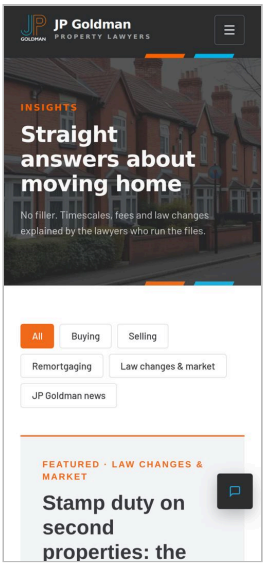

Homepage — OK.

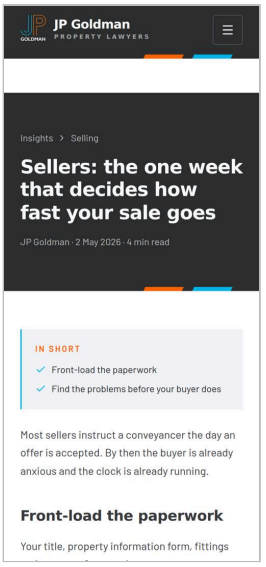

/conveyancing/ — chat button covers end of a text line.

/our-fees/ — old design; chat button over text.

/blog/ — OK, filters wrap cleanly.

Blog post — white strip under header; date shows 2 May 2026.
